

We are currently looking for a committed and reliable

## NETWORK ENGINEER (m/f, full-time)

to support our team.

**Start date:** March/April 2017

**Classification:** Operations

**Location:** Bangkok

## About Neos:

Neos, headquartered in Munich, is a globally trusted expert using technology innovatively to enable businesses' digital needs. The company offers a full range of solutions around Big Data, DevOps and Software Defined Data Centres, including infrastructure and application management, cloud infrastructure enablement and application development platforms. Neos also supports innovative software vendors in their virtualization automation, application hosting and cloud migration efforts.

Neos' clients include large enterprises in the areas of telecommunications, travel, hospitality and e-commerce. Neos aims to be the trusted technology partner of choice for organizations requiring specialized assistance to transition into, and operate, their IT in the digitized world. We create efficient teams of multi-skilled technology evangelists and innovators, who apply their experience in high-availability environments, to provide agile solutions. High ethical standards are an integral part of our business. Our teams identify with, and own responsibility for, their contribution to sustainable business success, which includes the environments in which we operate.

## Your Role:

### Your future responsibilities

- Configuration, Optimization, Operation and Troubleshooting of Juniper Network equipment
- Monitoring network performance and ensure system availability and reliability
- support and administration of firewall environments in line with IT security policy
- liaising with project management teams, third-line engineers and service desk engineers on a regular basis
- upgrading network equipment and performing maintenance
- establishing the networking environment by designing system configuration, directing system installation, defining, documenting and enforcing system standards
- Provide on call support (24\*7) for the network environments

# Personality Profile:

We are looking for a candidate who is passionate about technology and is able to communicate to audiences at all levels, the value of the Neos solutions.

## 1. Academic background:

- Bachelor's Degree in Information Technology or equivalent work experience

## 2. Professional Experience:

- 5+ years of experience with network administration, Firewalls, LAN / WAN / WLAN, Routing and Switching

## 3. Required skill set

- Ability to work across boundaries in a very demanding environment
- Knowledge of Routing, Switching, Firewalling, IPSec and SSL VPN's
- Knowledge of Juniper Networks devices portfolio including High availability setups
- Experience with other vendors, like: Cisco, Kemp, HP, and others advantageous
- Solution focused and customer oriented
- Excellent teamwork and communication skills
- Motivation to work independently in other areas of responsibility
- Good customer service skills and ability to communicate effectively
- Good understanding of infrastructure, architecture and design
- Strong diagnostic and troubleshooting skills
- Pro-active, adaptable, and result-driven approach
- Ability to work independently and as part of a team
- Ability to prioritize multiple tasks for efficient work output
- Fluent in English, verbal and written

## We offer:

An exciting and stimulating role in a dynamic, fast growing and multi-cultural IT company. You will have the opportunity to develop yourself and your career, working in areas involving the latest technology in a relaxed, professional environment. You will also have the opportunity to be innovative and think 'outside of the box'.
